

TD Series

Timer controlled condensate drains

*“Cost effectiveness from STELSEP®
.....reliable and economical timed drains”*

TD15A (integral BVS)

TD15B (separate BVS)

Carefully made and individually tested, these high quality timed drains from STELSEP® offer the perfect solution. Reliability and economy guaranteed!

Select either TD15A with an integrated ball valve and strainer or TD15B where the strainer assembly is a separate component, depending on the installation or your own preference.

Model	Description	Valve			Timer			General
		Pressure	Port size	Seal Material	Interval	Open	Voltage options	Ambient
TD15A	One-piece brass drain with an integrated BVS	0-232 psi	1/2" BSP or NPT	NBR	0.5 - 45 minutes	0.5 - 10 seconds	220Vac 110Vac 24Vdc	-4F to +140F
TD15B	Brass drain with a separate BVS assembly	0-232 psi	1/2" BSP or NPT	NBR	0.5 - 45 minutes	0.5 - 10 seconds	220Vac 110Vac 24Vdc	-4F to +140F

Part number example: **TD15A-110V-1/2BSP** has an integrated BVS, 110v coil & 1/2" BSP ports

Please note: Mains cord is not supplied with TD15. Please terminate & connect your power cord to suit the installation
